NEWS

Graphical Seat Map

On 29.06.2017 the new functionality „Graphical Seat Map“ was released in RailMaster.

Meanwhile some enhancements have been made:

- The „Graphical Seat Map“ can now also be used by agencies which PCs are still on JAVA 7 and have not updated to JAVA 8 yet.
- Though two seats were requested, it happened sometimes that only one seat was selected and shown in the graphical seat display. This has been corrected.
- In the mask „Wagenplan“ not all details were fully shown, e.g. full station name, departure time, train type. This has been corrected.
